

A. Some changes in our daily lives occur in cycles. Fill in the blanks to complete the different cycles.

evening afternoon dinner lunch night

Daily Meals

Times of the Day

B. Circle the correct words. Colour the part of the Earth where it is daytime yellow and the part where it is nighttime blue.

The sun gives us **light** / **air** and heat. The Earth **spins** / **jumps** to give us day and night. It is **daytime** / **nighttime** on the part of the Earth that faces the sun and **daytime** / **nighttime** on the part not facing the sun. It takes about 24 **hours** / **seconds** for the Earth to complete a daily **cycle** / **meal** .

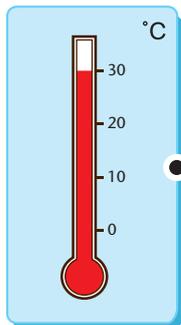

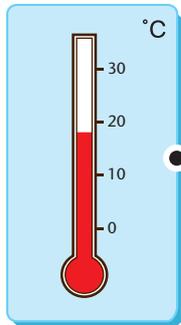

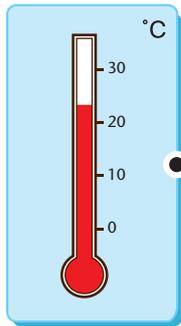

When we are getting into bed for a nice long sleep, someone on the other side of the Earth is getting up!

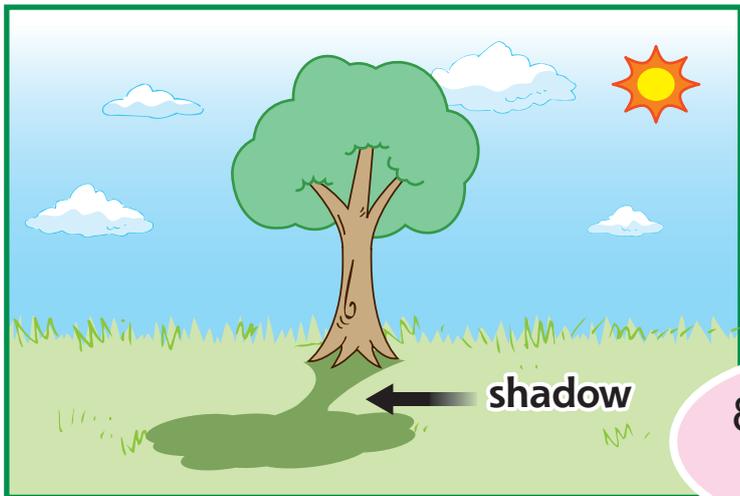

C. Draw lines to match the thermometers with the pictures.

One day is the time taken for the Earth to complete one turn. The temperature changes as the Earth turns.

D. Colour the correct pictures to show the shadows and times of the day.

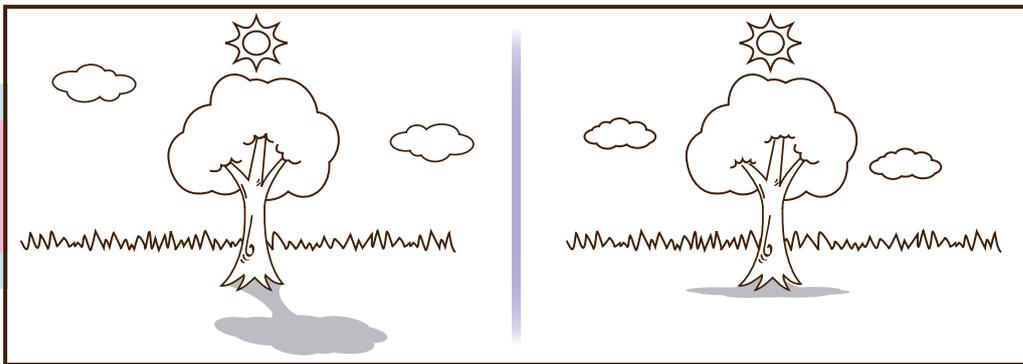

Shadows and Times of the Day

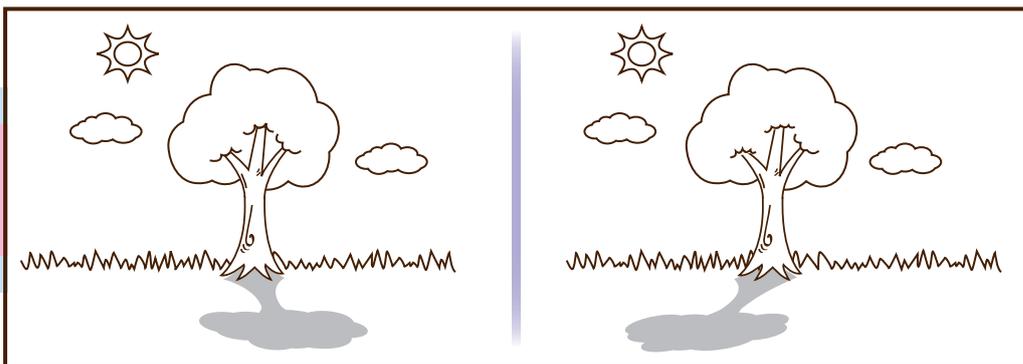

8 o'clock morning

12 o'clock noon

2 o'clock afternoon

5 o'clock afternoon
