

The Golden Fish

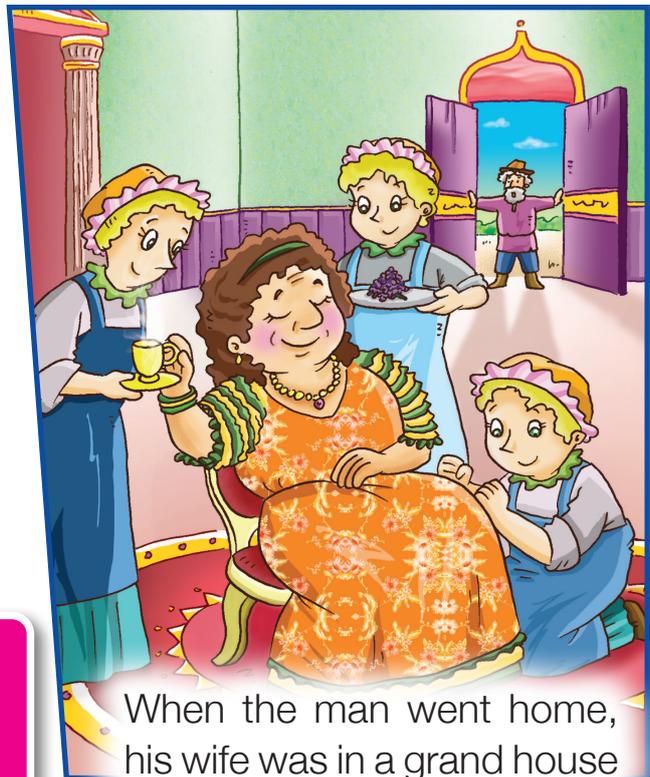

The next morning, the old woman asked the man to go to the sea again.

I want a bigger house with servants!

The poor old man returned to the sea.

Golden Fish, my wife now wants a grand house with servants.

When the man went home, his wife was in a grand house and surrounded by servants.

But after a few days, she wanted more. She wanted to become the queen of the seas.

I won't ask for that.

*Oh yes you will!
Go now!*

The fish was very angry.

*How will she rule the seas?
She can't even rule her own greed!*

The man returned home sadly. He found his wife in her old clothes, sitting in their old hut.

The golden fish had taken back everything because of his wife's greed.
