

The Careful Buffalo

Part 1

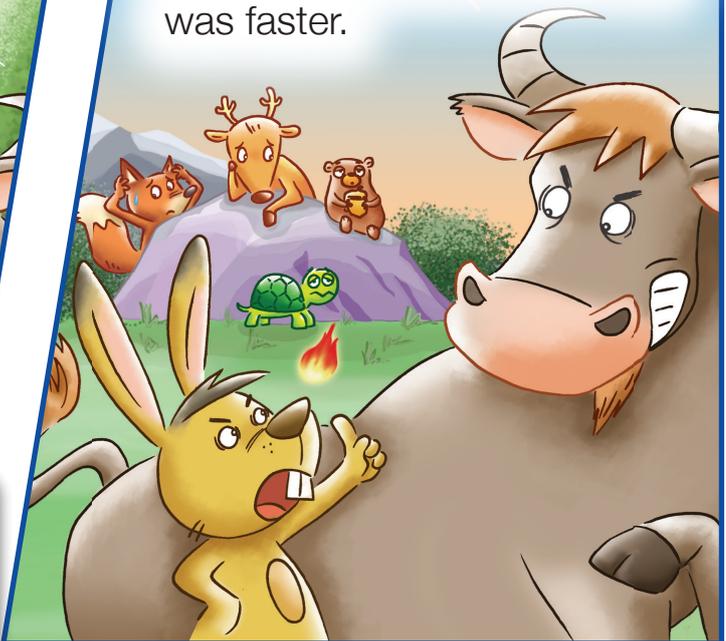

There once was a buffalo and a hare that lived in a forest. They were both fast runners.

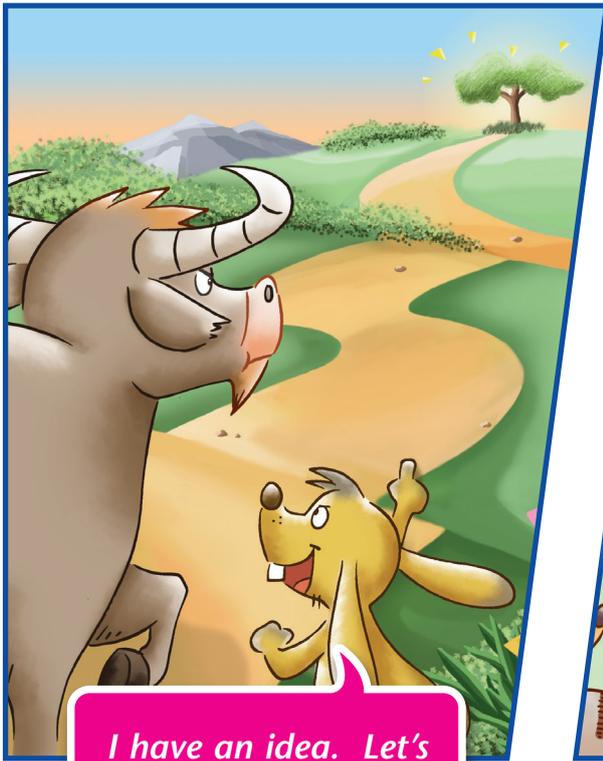

I can run faster than you!

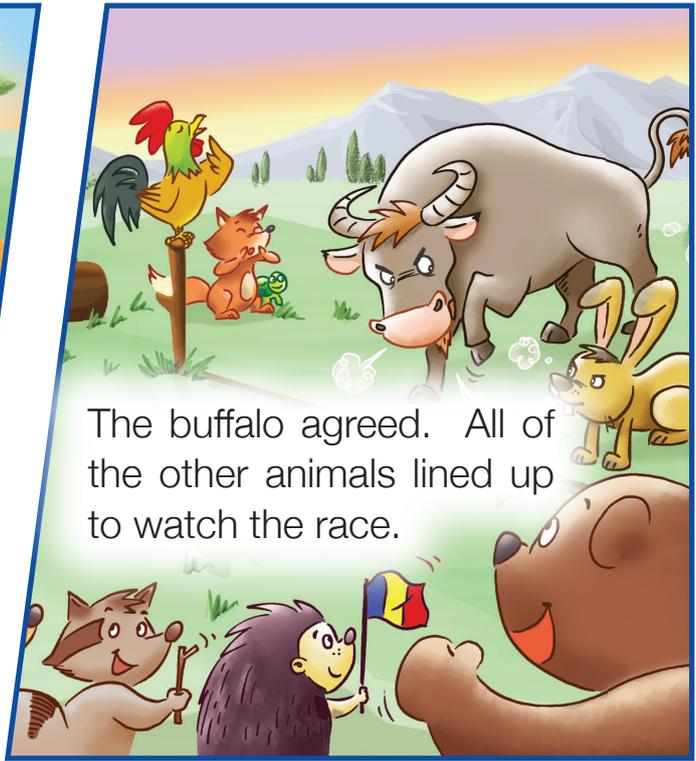

No, you can't. I'm much stronger and faster than you.

They could never decide who was faster.

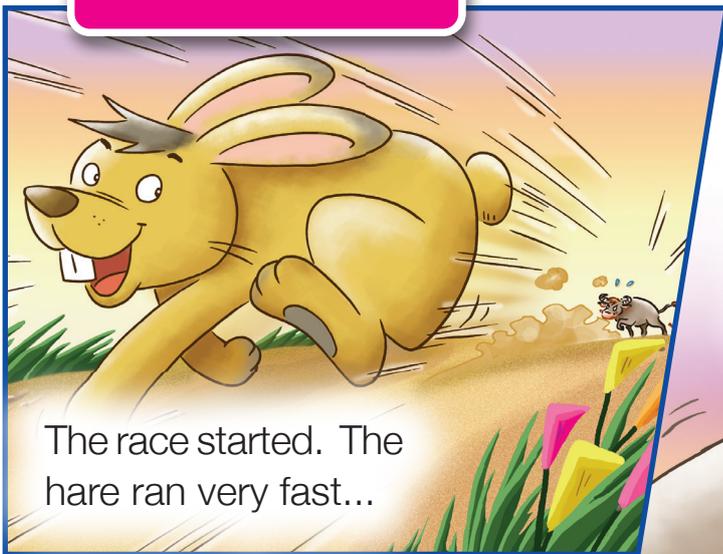

I have an idea. Let's race to that tall tree.

The buffalo agreed. All of the other animals lined up to watch the race.

The race started. The hare ran very fast...

But the buffalo started much slower. He snorted and pawed the ground before he set off towards the tall tree.

To be continued...
