

Corn Mazes

Mazes are fun, but corn mazes are a lot more fun! You actually have to go into the maze and find your way out.

How is a corn maze made? The farmer uses a tractor to cut a pattern of paths into the corn field. The pattern can be seen from the air, but on the ground, it is a great maze. There are signs with clues along the way to guide you.

Help! We've lost our way.

If you and your family cannot find the way out, just shout, "Help! We've lost our way." Someone will come to your rescue.
