

The Strawberry Patch

Summer is strawberry season.

Why not go strawberry picking and have fun getting a little messy and enjoy the great sunshine?

Try to find the biggest, juiciest strawberries ever in the little green bushes and eat them right away! You can also pick enough strawberries to take home for your mom to bake a pie or make some jam, or you can eat them fresh with your favourite ice cream!

Wear light, comfortable clothes when you go strawberry picking, and don't forget your cap and sunscreen!
